

Del Groups, with a decade-long background in design, decoration, and production in Canada, Iran, and Italy, strategically commenced its concentrated operations in Azerbaijan in 2018. This decision was made with the objective of enhancing the quality of design, decoration, and production in Azerbaijan—a dynamic and growing market and a gateway to the Eurasian region.

Initially, we established our position in the market by importing various types of cabinet sheets, countertops, and related products, earning customer trust and satisfaction. Subsequently, we launched a modern factory to manufacture high-quality tables and chairs that meet international standards, quickly gaining recognition not only in Azerbaijan but also in neighboring countries.

In response to market demand and numerous customer requests, we expanded our product range to include a wide array of furniture and items. These products range from kitchens to bedrooms, tables and chairs to washstands, TV stands to cabinets, and executive desks to shelves.

In pursuit of our strategic vision, we decided to increase production capacity and product diversity to meet the demands of the residential, office, commercial, and retail sectors. To achieve this goal, we upgraded our technical equipment and expanded the factory by establishing new divisions, including specialized chair and furniture production, metal processing workhouse, painting, woodworking, service, and interior design units.

In 2023, recognizing the potential of the Azerbaijani market, Del Groups transformed into a holding company. By incorporating new subsidiaries, our activities expanded beyond design, production, and decoration to include tourism, trade, and business development consulting. This ongoing development aims to meet market needs and continue moving toward a promising future.

Del Furniture is one of the key subsidiaries of Del Groups Holding, with a strong focus on the design and production of modern, high-quality furniture, playing a prominent role in the interior design industry. Leveraging the international experience of the holding in markets such as Iran, Canada, and Italy - and relying on cutting-edge technology and a team of expert designers - Del Furniture has succeeded in delivering products that meet global standards.

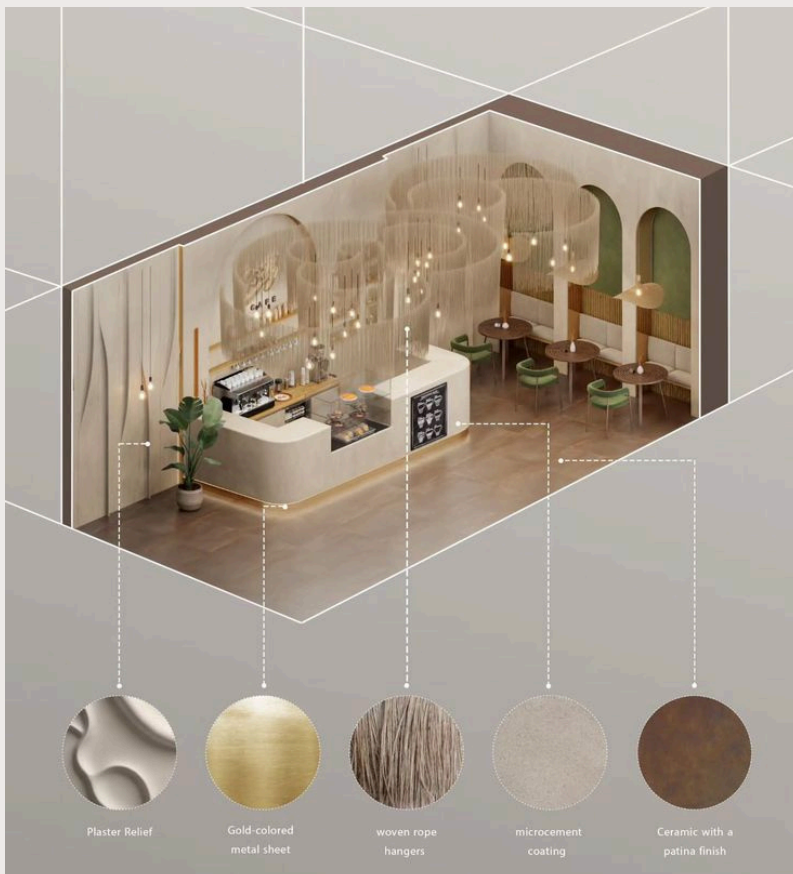

The company began its operations with the production of the popular DSW chairs - a combination of wood and metal, offering a blend of aesthetic appeal, ergonomic comfort, and durability. These products quickly gained a solid foothold in the dynamic and competitive markets of Azerbaijan and neighboring countries. With the development of its production infrastructure and targeted investment in advanced equipment, Del Furniture expanded its product range.

Today, the brand's portfolio includes a wide variety of items such as different types of chairs (including Polish, Teddy, bar, student chairs, and more), kitchen tables, round and rectangular dining tables, TV stands, shoe racks, and various other interior decoration pieces. All products are designed with modern aesthetics, high quality, and customizable features to meet the specific needs of customers.

In line with enhancing its services and responding to market demands, the company has also engaged in the import and distribution of cabinet surfaces, raw boards, HPL panels, and other related materials - effectively supplying a significant portion of the needs of manufacturing units and professionals in the interior design sector.

Del Furniture's core mission is to provide innovative, functional, and high-quality solutions for residential, office, commercial, and hospitality spaces - delivering a unique and satisfying customer experience through creative design, standardized production, and professional service.
